DIARY NOTES

DD/S

21 February 1958

25X1A9a

1. With Jim Garrison, [REDACTED], and others attended a demonstration of the RAMAC (305) machine at the downtown office of International Business Machines. I was very much impressed with the apparent capabilities of this machine and still feel that we have not given sufficient consideration to its use in the Agency. Have arranged for another demonstration for Ed Saunders, Gordon Stewart, and Shef Edwards on Monday at 10:00 a.m.

25X1A9a

2. Colonel [REDACTED] was in to deliver a paper requesting procurement of additional hardware. I also discussed with him his forthcoming trip to the Far East on which he is departing in about a week.

DEPUTIES' MEETING

Friday, 21 February 1958

**PRESENT: Mr. Dulles, Gen. Cabell, Mr. Amory, Col. White, Gen. [REDACTED]
Messrs. [REDACTED] Kirkpatrick, [REDACTED] Sheldon, [REDACTED]**

Mr. [REDACTED]

a) Reported that the responsibility for the 1290-d Program had been assigned to Deputy Under Secretary of State for Economic Affairs C. Douglas Dillon, and in particular to Graham Martin.

Mr. Kirkpatrick:

25X1X7

Colonel White:

Reported he received a number of comments about the lack of use of the KY-1 phone and noted that we presently have ten pieces of this equipment installed with ten more (which are being modified) to come. Several comments

TOP SECRET

were made, noting that the equipment is not entirely satisfactory since it frequently is out of service for repairs. After some discussion as to whether we should maintain this service it was agreed that continued efforts would be made to use it for at least another month and at the end of that time further discussions will be held to determine whether it would be worthwhile to continue it in operation. *Action: DD/S* (Note: Brought this to Mr. [redacted] attention on 5/5/58. Lg)

Mr. [redacted]

25X1A9a

Noted he had received a report that SAC is considering the establishment of a facility in Omaha for the purpose of interpreting photographs obtained from two special Air Force projects. This led to a discussion as to whether it would be feasible to create one Central Photo Interpretation Center for the government as a whole. The Director commented that in a good many respects it appeared to him that he should at least raise this problem with the President's Board particularly in view of his coordinating responsibility. Mr. Kirkpatrick undertook to draft a paper on this subject for the Director's use during his meeting with the Board on 28 February.

Mr. Amory:

25X1A

Reported that Werner Von Braun had been briefed on [redacted] and a [redacted] Center had been established at [redacted]. He made it clear that no raw material from this source would be made available to [redacted]
